PoolSketch

14 day free trial

Sketch the pool with the customer. Send the proposal before you leave.

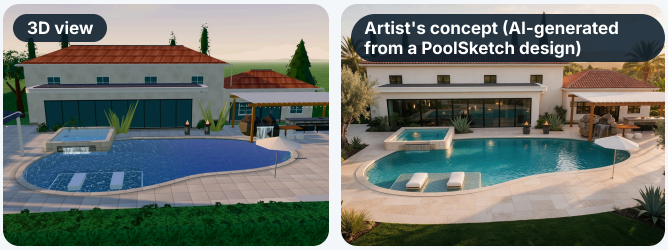

PoolSketch is a design app for any mobile device for pool builders, landscapers and sales reps. Start from the survey, describe or drag a pool, show it in 3D and hand over a branded PDF at the first meeting.

WHAT YOU DO IN THE YARD

1. **Start from the survey.** Photo or PDF, set the scale from one known length, trace the house, fence and the setbacks you enter.
2. **Describe it or drag it.** Type or say the pool in any language and get a full, editable design in about 3 seconds (1 AI credit), or drag from 345 templates, including more than 70 pool shapes. Or open one of 19 finished example designs under Get inspired.
3. **Watch the distances.** Live clearances to the house, fence and property line while you stretch.
4. **Show it in 3D.** To scale, with sun, sunset and night views, plus a fly-around video.
5. **Landscape in one tap.** Seven styles and ten planting packs, all editable.
6. **Send the PDF.** Your logo, the plan, the 3D picture, Option A and B and takeoff numbers. The app speaks 21 languages.

AI PHOTO FINISH

Quick preview (about 10 to 15 seconds) keeps your yard photo and locks the pool footprint to the design. Showcase (about 2 minutes) is the most photographic. 1 credit each, refunded if it fails.

PLANS

PLAN	PRICE	INCLUDES
Core	**$35**/mo	1 seat, the full app, 3 one-time trial AI credits
Pro	**$79**/mo	1 seat, 100 AI credits a month, unlimited fly-around video
Team	**$179**/mo	4 seats (extra seat $39/mo), 500 pooled AI credits a month, shared workspace

Billed yearly: $28, $63 and $143 a month. Top-up packs, one time, never expire: 50 credits $12 (Pro), 200 pooled credits $40 (Team). US dollars plus tax where it applies. 14 day free trial; Core needs no card.

WHY BUILDERS USE IT

- Built for the first meeting, not a 3D suite you have to learn first.
- Works on the phone you already carry. Install from the web on iPhone, iPad, Android or desktop.
- Designs stay on your device first and work offline.
- No per-design or per-customer fees.

HONEST LIMITS

AI pictures are illustrations, labelled Artist's concept, and shapes or finishes may differ from the built pool. Review every picture before you send it. PoolSketch makes concept sketches, not construction drawings. Check setbacks and codes with the city or county.
