PoolSketch

How to install PoolSketch

PoolSketch is a web app. Install it from your browser in about a minute; it then opens from your

iPhone and iPad (Safari)

1. Open app.poolsketch.tegminestar.com in Safari.
2. Tap Share (the square with an arrow).
3. Tap Add to Home Screen, then Add.
4. Open PoolSketch from your home screen and sign in.

Android (Chrome)

1. Open app.poolsketch.tegminestar.com in Chrome.
2. Tap Install if the prompt appears, or open the menu and choose Install app or Add to Home screen.
3. Open PoolSketch from your home screen and sign in.

Windows, Mac and Chromebook

1. Open the app in Chrome or Edge.
2. Click the install icon at the right end of the address bar, or open the menu and choose Install PoolSketch.

Samsung Internet

1. Open the app in Samsung Internet.
2. Open the menu, choose Add page to, then Home screen.

Mac with Safari 17 or later

1. Open the app in Safari.
2. Choose File, then Add to Dock.

Firefox on a computer

Firefox on a computer cannot install web apps. Use Chrome or Edge to install, or bookmark PoolSketch and use it in the browser.

Good to know

You do not have to install it: PoolSketch works in any current browser. Installing makes it open full screen, work offline and keep your designs safer on the device. Updates arrive by themselves: the app checks for a new version when it opens while online and uses it the next time you open or refresh it. Your designs live on your device and are not lost by updates. App Store and Google Play versions are in preparation; until then, install the web app. Questions: info@tegminestar.com
